CURRENCY BUILDER

PRINT GUIDE / FIRST COLLECTION / 10 OCTOBER 2026

24 editions. 48 sides.

Eight American regions, three international studies, and thirteen culture, nature and imaginative worlds. All fronts use new generated scene artwork; backs use separately composed typography, engraved rosettes and matching art vignettes. Notes are collectible art units, not legal tender or an established payment or backing system.

Start with the duplex PDF.

Choose US Letter or A4 to match your paper. Print at Actual Size / 100%, portrait orientation, double-sided, flip on the long edge. Pages alternate FRONT then BACK for each three-note sheet. Each centered column uses the same vertical coordinates on both sides. Do not select Fit, Shrink or borderless enlargement.

Test one sheet first.

Print pages 1-2 on plain paper. Hold the sheet to a light and check that the trim corners coincide. The cut note must measure 150 x 75 mm. Printers may introduce registration drift; correct back-side alignment in the print driver before using your chosen stock. This digital imposition has been checked; a physical printer proof has not been made.

Paper and trimming.

Start with a smooth matte stock supported by your printer, approximately 120-160 gsm. Confirm your printer supports duplex at that weight. Cut on the trim marks, 3 mm inside the outer bleed edge. For a first test, trim a single sheet rather than a stack.

For a print shop.

Supply nouns-money-24-master-with-bleed.pdf. It contains 48 pages in front/back order, 156 x 81 mm page and bleed size, with a 150 x 75 mm TrimBox. Type and the Noggles mark are vector; font programs are embedded. Source artwork is RGB and meets the effective 300 ppi minimum at the placed front size. The shop should use its own paper/press ICC profile if CMYK is required and supply a color and duplex registration proof. This is an RGB digital-print master, not a certified PDF/X file.

Included source material.

The package includes 24 source illustrations, 48 trim-size PNGs rendered at 300 ppi, the print masters, both paper-size impositions, an overview, this guide, exact generation prompts in series.json and the rebuild script. Original PNG illustrations are included unchanged. PDFs use high-quality JPEG embedding at native resolution, without repainting or upscaling. Numeric art units and serials are decorative design elements; serials are not individually minted inventory IDs.

THE COLLECTION / AMERICA + INTERNATIONAL STUDIES

---

01 PACIFIC BLOOM

CALIFORNIA - Coastlines connect us. California poppies, Pacific swells and the geometry of a beach town.

02 ELECTRIC BOROUGH

NEW YORK - An imagined city built from bridges, train lines and the energy between blocks.

03 PRAIRIE CURRENT

AMERICAN HEARTLAND - A tribute to tallgrass, working landscapes and the long horizon of the American interior.

04 DESERT SIGNAL

AMERICAN SOUTHWEST - Desert geology, agave and long shadows become an architecture of patient time.

05 MOUNTAIN SONG

APPALACHIA - Mountain folds, rhododendron and a circle of strings celebrate a landscape with a musical pulse.

06 FRESHWATER WORKS

GREAT LAKES - Fresh water and industrial imagination meet in a celebration of making things together.

07 AURORA PASSAGE

ALASKA - Glacier, salmon and northern light form an imagined passage through the far north.

08 DELTA RHYTHM

GULF COAST - Magnolia, pelican and brass-colored bends give the Gulf a rhythm all its own.

09 APOTHECARY GARDEN

NORDIC STUDY - An apothecary design study in walnut, moss and sage. Decorative botanical art; no health benefits are represented.

10 ALPINE PRECISION

ALPINE STUDY - A dialogue between mountain contours, edelweiss and the precision of designed objects.

11 SEASON LETTER

KYOTO STUDY - An imagined garden letter: maple, iris and water arranged around the turning seasons.

THE COLLECTION / CULTURE, NATURE + IMAGINATION

---

12 HEX & HARVEST
TABLETOP WORLDS - A Catan-inspired design study about resource exchange. Unofficial homage; no affiliation or endorsement.

13 SWEET FREQUENCY
SYNTH-POP STUDY - An Eurythmics-inspired synth-pop study: loops, signals and dreams, with no portraits or borrowed lyrics.

14 THE VOW
CEREMONY EDITION - A keepsake for promises, shared tables and the beginning of a life made together.

15 COLOR COMMONS
ART EDITION - Color becomes a shared language. An original composition of curves, fields and unexpected intervals.

16 TIDEFORCE 84
ORIGINAL CARTOON WORLD - An original cartoon universe of ocean rescue machines. First character: the crab-shaped harbor guardian.

17 STAR POST EXPRESS
ORIGINAL ANIME WORLD - An original anime universe where mechanical koi couriers carry letters between moons.

18 RALLY CLUB
SPORTS EDITION - The pleasure of a good rally: a court, a ball and a reason to meet again.

19 ASTRAL TREASURY
MYSTIC EDITION - A fictional treasury of night skies, moths and celestial instruments. Meaning remains yours to make.

20 SEVEN LIGHTS
CHAKRA STUDY - Seven color fields inspired by chakra symbolism. Symbolic art, with no medical or therapeutic claim.

21 FLOW ATLAS
MERIDIAN STUDY - A symbolic study of channels and connections inspired by meridian traditions; not an anatomical map or treatment guide.

22 PELAGIC COMMONS
OCEAN EDITION - Whale, kelp and plankton share a world held together by currents.

23 CANOPY RESERVE
FOREST EDITION - Redwood, fern and fungi make a living architecture of roots, rings and renewal.

24 WILD AMERICA
NATIONAL PARKS STUDY - An artistic composite inspired by Yosemite, Yellowstone and Acadia. Unofficial tribute; no park affiliation is implied.

CREATIVE DIRECTION / PROVENANCE + NEXT EDITIONS

One system, many worlds.

Currency Builder is the maker; Nouns Money is the collectible issue. Keep the trim, information rail, readable note hierarchy and official Noggles consistent. Let place, color, engraving and the reverse-side story change. This first collection tests breadth without requiring every theme to become its own brand.

Three original worlds to develop.

Tideforce 84: ocean rescue machines, miniature harbor stations and rescue missions. Star Post Express: mechanical koi couriers, orbital post offices and letters between moons. Rally Club: playful community sport, beginning with pickleball. These are proposed original creative names and visual worlds; no name-clearance search or licensing agreement is represented.

Studies and symbolism.

Hex & Harvest is a Catan-inspired tabletop study. Sweet Frequency interprets the Eurythmics/synth-pop request using original instruments and signal forms, without portraits, lyrics or copied covers. They are unofficial studies. Chakra and meridian editions use spiritual and channel symbolism as art, without anatomical or treatment claims. National Parks is an unofficial artistic tribute, not a government issue.

A practical next series.

Extend America region by region: a 50-state issue with one native plant, one built or natural feature and one local story per state. Follow with individual park editions, personalized wedding names and dates, and deeper character/story bibles for the three original worlds. Keep any future redemption, merchant credit or backing program separate from the decorative art-unit denominations until its rules actually exist.

Production record.

Artwork created with the built-in image generator, one prompt per edition. Prompts are preserved in source/series.json. The installed poster-image-engine files were iCloud dataless placeholders and could not be read during this run; this package uses a self-contained declarative brief, rebuild script and explicit preflight instead. No website publication, merchandise manufacturing or physical printing was performed.
